

EVALUATION SCHEME GUIDELINES

The evaluation scheme shall be included as described below:

For all structured courses there will be minimum of three components of evaluation including one Comprehensive Examination. Normally, ***one mid semester test*** and ***comprehensive examination*** are to be conducted for each course during the scheduled periods in a semester as mentioned in the academic calendar besides other components such as projects, seminars, quizzes, assignments etc. ***Duration of the mid semester test will normally be 90 minutes for 20% to 35% weightage depending on the nature of evaluation components in a course. The comprehensive examination shall normally carry a weightage of 30% to 45% and will be of 3 hours duration.***

Evaluation components must be spaced at timely intervals during the semester to provide students with prompt and constructive feedback about their progress and opportunities for additional learning prior to a subsequent evaluation to ensure continuous evaluation.

For First Degree Courses:

- (a) at least 20% of the evaluation components must be open book in the form of written test or take-home assignments
- (b) include the minimum number of evaluation components other than mid semester test and comprehensive examination as per the details below:

Ratio of registered students to no. of instructors	Minimum number of evaluation components other than mid semester test & comprehensive examination*
> 80	1
Between 40 – 80	2
< 40	2 - 3

* Evaluations related to practical component (like lab record, lab test, viva etc) is considered as one evaluation component

- (c) to ensure continuous evaluation, the frequency of each evaluation component other than mid semester test & comprehensive examination like quizzes, assignments, seminars etc should be at least 2

For Higher Degree Courses:

- (a) include two or more research-oriented activities (Literature Survey, Seminars/ Presentations/ Research Summaries, Design/ Development of processes/ products/ artifacts, Experimental or Quantitative Analysis of processes/ products/ phenomena, Design of Experiments etc.)
- (b) include at least 40% of evaluation components that are open book in the form of written test/ take-home assignments
- (c) include at most 60% of evaluation components in the form of Tests/Exams

For all other exceptions, Convener, Departmental Committee of Academics (DCA) may be consulted.
